

IPM 
BATH FITTINGS

A Vivid Elegance of Exquisite Colours

ABOUT US:

OUR PHILOSOPHY

Established in 1966 with 50 years of Experience and still counting, We at IPM, believe that ultra modern technological setup is the fundamental to world class products. We continuously strive to create value and exceed customers expectations in quality, delivery and cost effectiveness through continuous product innovation and cutting edge technologies. In line with our mission to deliver superlative Kitchen and Bathroom Faucets, IPM established state-of-the-art manufacturing units spread in the heart of Delhi & NCR region.

WHY US

In addition to focus on product quality, aesthetics and functionality, It is a set of salient features that have made us a preferred supplier to clients. We are known for our:

- Unflinching commitment
- Fair business practices
- Strong network of dealers in all over India
- Competitive prices
- Range of latest designs & new products
- Customization / Flexibility offered to buyers
- Strong market positioning
- Timely delivery
- Endeavor to satisfy customers, every time.

BRAND VALUES

- Passion for Technology
- Taking care of our people
- Excellent customer service
- Building strong relationships
- Entrepreneurial spirit
- Reliability
- Integrity

CERTIFICATES

འབྲུག་གི་གནས་ཚུགས་ལམ་ཁང་།
BHUTAN STANDARDS BUREAU
The National Standards Body of Bhutan

Certificate No: CPC (68)/2018/0218

Certificate of Product Conformity

This is to certify that the quality of the following product(s) has been approved.

BRAND NAME	: IPM
PRODUCT CATEGORY	: Chrome plated bathroom fittings (All ranges specified in the catalogue)
PRODUCT STANDARDS	: IS 1264: 1989 (Brass)
MANUFACTURER	: Shiv Enterprises 459, Patparganj Industrial Area, New Delhi-110092, India.

This certificate is valid from **01 October 2018** till **30 September 2020**

Head
(Certification Division)

CERTIFICATE

Certificate of Compliance

We confirm that the technical documentation for the below mentioned products according to BS EN 617:2008

Products:

Bathroom / Kitchen Faucets and Accessories

Manufactured by company:

Shiv Enterprises

459, Patparganj Industrial Area, Delhi-110092, India

is complying to the applicable essential requirements of the BS EN 617:2008

The Regal Register (UK) Ltd. has reviewed manufacturer's technical documentation, factory production control & Test reports and found it in compliance with above mentioned Directive (s).

This certificate is issued under the following conditions:

1. It applies only to the above referenced set of products. The manufacturer is obligated to assure that all products of the respective model conform to the type assessed for the certificate.
2. The Certificate remains valid until the manufacturing conditions, the quality systems or relevant legislation are changed subjected to maximum Validity of 3 years.
3. The Certificate validity is conditioned by the positive results of the surveillance audits.
4. After fulfilling the relevant EU legislation requirements, the manufacturer shall affix to each product of the above referenced models, CE Marking according to the following example:

Certificate No. : CE-29628
Date of registration : 29th April 2019
Date of this certificate : 29th April 2019
Certificate Expiry Date : 29th March 2022
Re-certification Expiry Date : 29th March 2022

Authorized Signatory
Regal Register (UK) Ltd.

Disclaimer:

This Certificate is valid only as long as the organization meets REACH's requirements. The status of the certificate may be checked at www.regalregistrars.co.uk

Further compliance regarding the issue of the certificate and the availability of the management system requirements may be obtained to contact the organization. Please check www.regalregistrars.co.uk for current status of the certificate, official old logo and old seal version in order to avoid confusion. This certificate remains property of REACH, to avoid a loss of document requirements.

This Certificate is valid as long as the organization meets REACH's requirements. The status of the certificate may be checked at www.regalregistrars.co.uk

QUALITY

SPECTROANALYSIS FOR ELEMENTAL COMPOSITION OF BRASS

A regular SPECTRO Analysis of the Raw material used for casting is done in order to maintain and meet the International Standards of Brass Elemental composition Which results In better Machining, Super-Finish and more importantly DEFECT FREE CASTING.

To Ensure the quality of brass at IPM, taps are chosen at random from the Casting department and are Spectro Analysed Again to ensure that the desired Elemental Brass Composition is achieved.

AIR AND WATER TESTING MACHINES FOR LEAKAGE DETECTION.

Everything at IPM comes with a seal of exceptional quality. All our products' components, ease of operation and perfect looks have to withstand numerous endurance tests and pass with flying colors before it leaves the premises.

Each and every product goes through Air and Water testing machines to detect any leakage from the taps which are tested from "0.5 to 5.0" Bar Pressure. This makes us super confident about our products Performance, working and durability taking the customer's satisfaction to a whole new level.

ITALIAN CERAMIC DISC FOR LONGER LIFE

All quarter turn ranges are fitted with Italian technology ceramic discs made of alumina known to be the hardest material after diamond.

INTERNATIONAL STANDARD, FOUR LAYER COATING FOR LONG LASTING SHEEN

The nickel and chromium coating on our faucets is in accordance to british standards service conditions no. 2 & 3 defined for kitchen / bathroom fixtures.

EUROPEAN CARTRIDGES FOR SUPERIOR QUALITY & DURABLE PERFORMANCE

All single lever ranges are fitted with European cartridges making them at par with international brands in terms of quality and performance.

GERMAN AERATORS FOR PERFECT FOAM FLOW

Foam flow faucets in all ranges are fitted with honeycomb aerators that mix air with water to form a stream of aerated water (foam flow) which does not splash and spill

THE MANUFACTURING PROCESS - How a brass bar becomes a faucet!

CASTING – Forming the faucet

Let's walk through the journey of the manufacture of a Watertec Faucet – It starts as a raw brass bar which melts in the furnace at over 1000 degrees Celsius. This liquid metal is now ready to be cast into a recognisable form. The faucets are manufactured using IMR gravity casting machine

MACHINING – Adding smooth finishing

The faucet undergoes Machining - a completely mechanised process. The cutting-edge technology and experienced workforce ensure the gravity casting body has all the surfaces finished to a high degree of smoothness.

POLISHING – Shimmer & shine

Next, the faucet enters the Polishing stage. The rough casting is polished by hand, to ensure the surface has an impressive shine. All flat surfaces and edges are polished manually. An automatic polishing machine is also used to increase production capacity.

PLATING – Adding long-lasting layers

The faucets are placed in an electrolytic immersion bath. In one of the most modern plating systems, the faucet now receives a brilliantly shiny chrome layer that ensures long-lasting durability. It is left to bathe in several electrolytic baths for almost an hour.

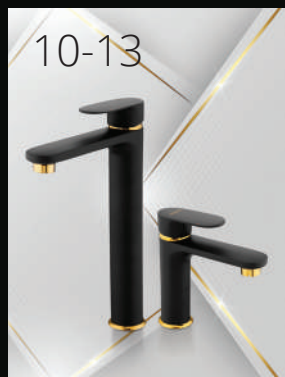

ASSEMBLING – Piecing the faucet together

A single faucet comprises almost 30 individual components. In the final assembly, the specialised workers assemble all the parts. No product leaves the factory without first being tested for leaks and optimum spray performance.
